Backend Skills

Node.js, Express.js

Programming Language

JavaScript

Tools & Libraries

Axios, React Router DOM, Postman, Git, GitHub, VS Code, NPM, JSON Web Token (JWT)

Database

MongoDB, SQL(MySQL)

Industrial Training / Internship

MERN Stack Developer 2023/09 – 2024/09
E-Skill Web Indore, India

PROJECTS

Crypto Web

- Created a cryptocurrency tracking application using React.js, Redux, and Material UI.
- Integrated real-time data using a third-party API via Axios.
- Implemented user authentication, cart functionality, and dynamic total price calculation

Khatabook

- Designed a personal finance tracker using React and Context API.
- Displays total income, expenses, and transaction history dynamically.
- Implemented data management functionalities to add, update, and delete entries.

Feedback App

- Developed a feedback management tool using pure JavaScript and DOM manipulation.
- Added features like add, delete, and clear feedback using query selectors.

Support Desk

- Built a complaint management platform using React.js, Express.js, and MongoDB.
- Developed RESTful APIs and MongoDB schemas using Mongoose.
- Improved UI/UX through responsive and interactive design.

Certificates

E-Skills

Participated in 100 days of code challenge.

Declaration

I hereby declare that the information provided above is true to the best of my knowledge and belief. I take full responsibility for the correctness of the same.
